HELP US SAFEGUARD

THE CANINE GENETICS CENTRE

We aim to understand the genetic basis of inherited diseases in dogs and to develop DNA tests that, together with breeding advice, will improve the health and welfare of generations of dogs. Your support is urgently needed to secure our path towards a brighter future for our beloved canine companions.

<https://www.canine-genetics.org.uk>

**Text DOG10 to 70033
to donate £10***

*UK mobile only. Texts cost your donation plus your standard network rate. 100% of your donation will go towards canine genetics research at the University of Cambridge. You must be 16+ and have the bill payers permission. Full T&Cs at cam.ac.uk/textgiving
